

Personal Data Protection Implementing Law

Latest Status

- Two key implementing regulations under the PDP Law, covering the detailed requirements (RPP PDP) and the establishment of the PDP Agency (Perpres Kelembagaan PDP), are still ongoing.
- The RPP PDP is nearing completion, having passed the harmonization process, and the finalized draft has been submitted to the State Secretariat (Setneg) for the President's approval.
- The Komdigi team noted that, typically, before the President signs the regulation, Setneg will convene a final confirmation meeting with all involved ministries and agencies.
- However, as for the establishment of the PDP Agency, it will be regulated under the Presidential Regulation (Perpres) on the PDP Agency's institutional framework. Currently, it remains at the inter-ministerial discussion stage and has not yet entered the harmonization process.

What to Anticipate?

- As for the timeline, the Komdigi team can only provide an estimate since the RPP PDP is currently under review by the State Secretariat (Setneg). They expect the President to sign it around November or December.
- However, it remains uncertain whether the same timeline will apply to the Presidential Regulation (Perpres) on the PDP Agency.
- **Onwards:** IBM will actively monitor developments and intends to organize a meeting with Komdigi once it is released.
